TB INTENSIVE WORKSHOP

APRIL 17-18, 2008

TOLEDO, OH

Presented by

New Jersey Medical School Global Tuberculosis Institute

This program is an activity of the

**NORTHEASTERN REGIONAL TRAINING &
MEDICAL CONSULTATION CONSORTIUM**

COURSE DESCRIPTION

This intensive two day workshop covers key topics in management and treatment of tuberculosis including epidemiology, transmission & pathogenesis, diagnosis and treatment of TB, TB in children, MDR-TB, TB/HIV co-infection, and other special topics. The format includes a combination of lectures, discussion and case studies.

TARGET AUDIENCE

This workshop is designed for physicians and nurse practitioners who are actively engaged in the management of patients with tuberculosis.

OBJECTIVES

Upon completion of this workshop, participants will be able to:

- Identify the principles of TB transmission, diagnosis, and treatment
- Apply recent guidelines for the treatment of tuberculosis, contact investigation as it relates to TB outbreaks, and the use of new diagnostic procedures to the management of patients with tuberculosis
- Discuss the management of TB in special patient populations, e.g., immigrants and refugees, pediatric patients, persons with TB-HIV co-infection, and persons with drug resistant disease

REGISTRATION PROCESS

Applicants from Indiana, Michigan, and Ohio should contact their state TB Program to register for this course and to obtain additional information. Contact information for can be found on the application form.

FEE

There is no fee for attending this course. While breakfast and lunch will not be provided, mid-morning and late afternoon coffee breaks and light refreshments will be available.
