

Submission Guidelines & Procedures to Western IRB for UMDNJ Investigators

- **Circumstances Requiring Review of Protocols by a UMDNJ IRB**

Under the following circumstances, protocols may not be reviewed by WIRB, but must be reviewed by a UMDNJ IRB:

- ❖ the research will be conducted at a non-UMDNJ performance site (such as a CINJ-affiliated site, VA affiliates, etc.).
- ❖ the research will have or could be perceived as having significant local impact on the University's host communities, requiring special sensitivity to the University's host communities' attitudes and culture, and/or sufficient knowledge of the local research context.
- ❖ the research will be conducted by investigators who have current compliance issues or are otherwise not in good standing with a UMDNJ IRB.
