

UMDNJ Client Based VPN Changes and Instructions

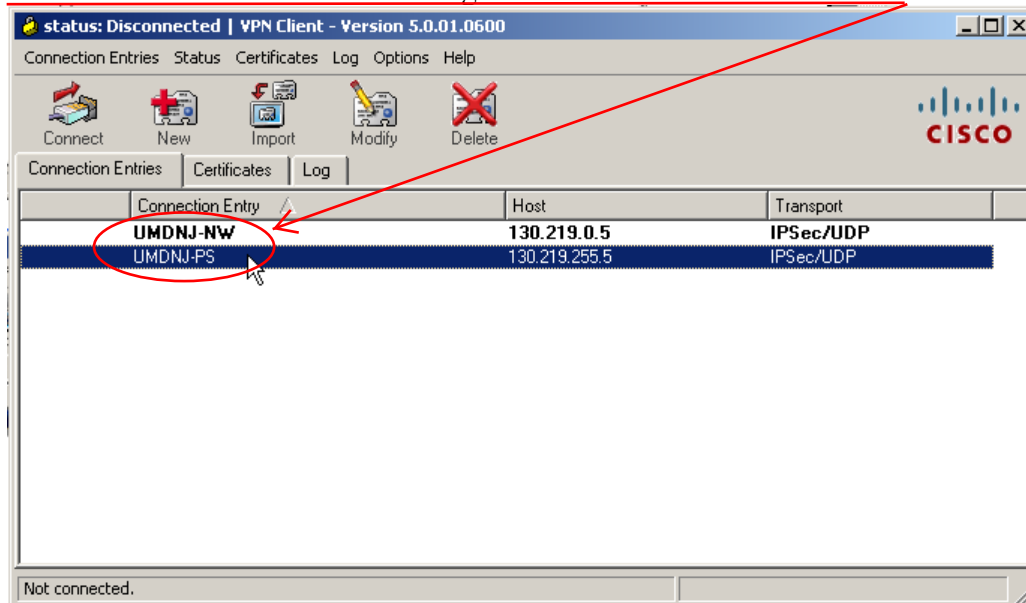

A major network upgrade will take place on July 26, 2008 that will affect users connecting remotely. With that, the Piscataway VPN connection, UMDNJ-PS, will no longer be available. You must use the Newark connection, UMDNJ-NW, for VPN client access.

Please follow the instructions below to remove the Piscataway profile from your Cisco VPN IPsec client.

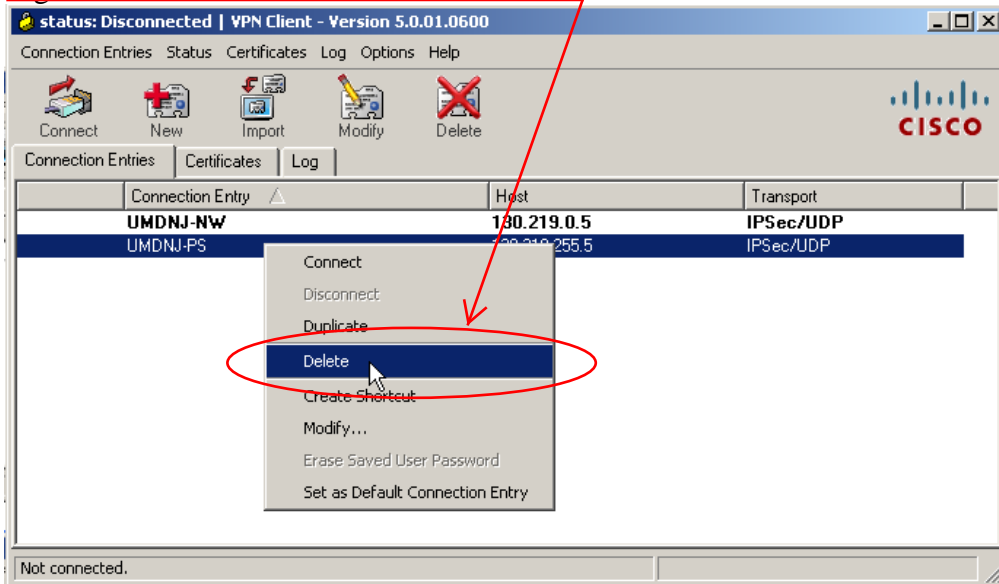

Open your VPN client to access the connection window below:

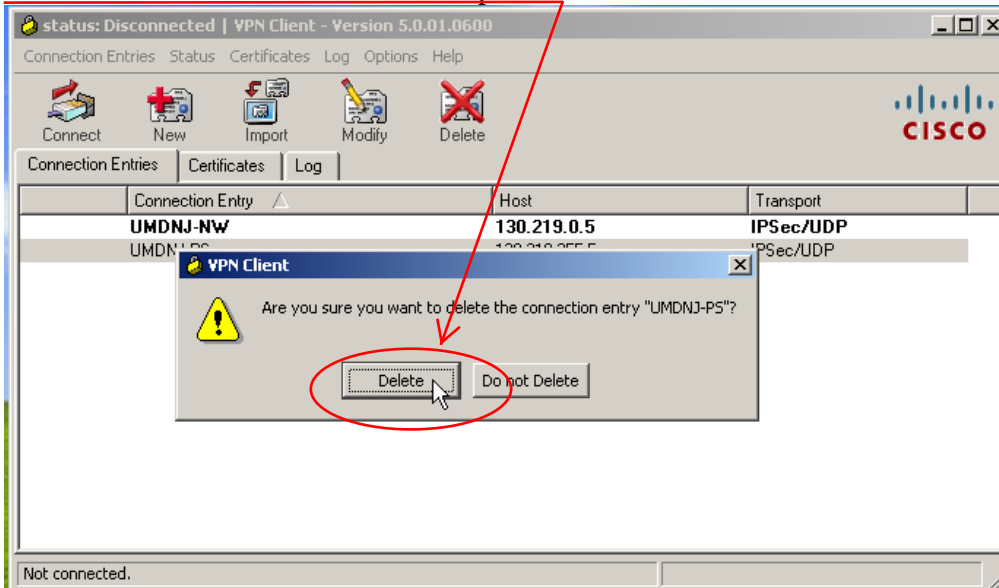

UMDNJ-PS Profile that will no longer work and needs to be removed:

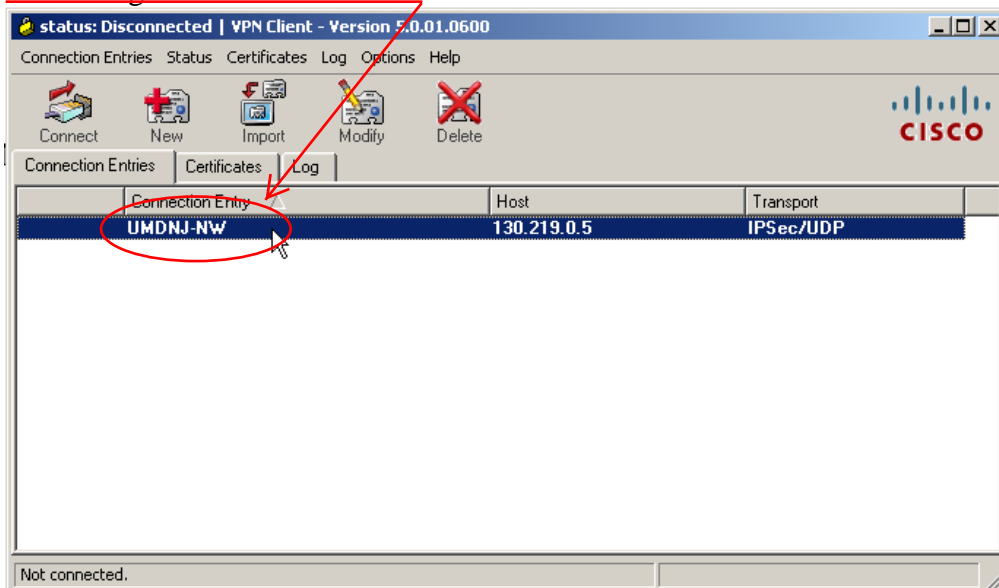

Right Click on UMDNJ-PS and select Delete:

Confirm deletion of the UMDNJ-PS profile:

Remaining UMDNJ-NW Profile:

Additional documentation and instructions are available through the IS&T webpage:
