

Register for InfoPOEMs/InfoRetriever Use

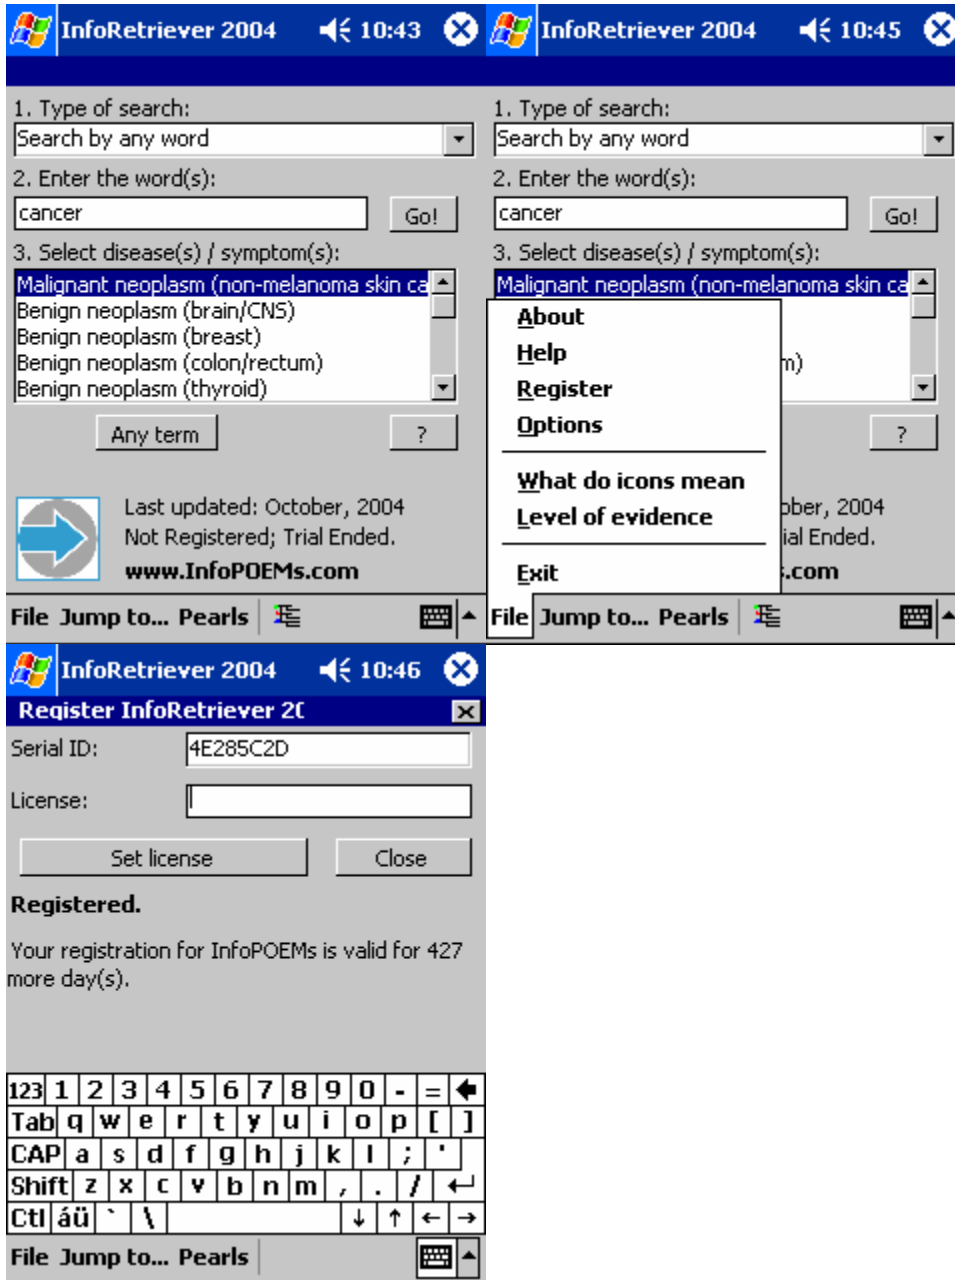

Users will note that, upon downloading InfoPOEMs/InfoRetriever, they are given a 30-day trial subscription and must register the product at the end of that time.

There is no need to wait the full 30 days to do this; it can be done at any time prior to the end of that trial period. The following steps should be taken to register as a user of this product. The steps may differ, based upon your PDA's operating system, e.g. Palm OS, Pocket PC.

To register, you will need to have both your PDA and a desktop computer available.

1. On your desktop computer, go to the UMDNJ – University Libraries' copy of InfoPOEMs/InfoRetriever at <http://www.umdnj.edu/librweb>. Mouse over the **"Databases"** link and click on **InfoPOEMs/InfoRetriever**.
2. Locate the link to **"Support,"** found on the upper left portion of the page.
3. Mouse over the link to "Support" in order to highlight the contents of that link. Click on the link for **"Registration."**
4. The **top** of the page contains links for registration instructions based on your PDA's operating system. Click the appropriate link, e.g. Pocket PC or Palm OS.
5. Under the **"Institutional Subscribers"** information section, click on the **"Online Access"** link (it appears in orange).
6. You'll be prompted to enter your e-mail address, name, and platform on a new screen. Enter that information, then press the "Submit" button. You'll be taken to a page headed **"Obtain an InfoRetriever License Code for PDA Platform"** (this will say either Palm OS or Pocket PC, depending upon your device). You'll see a box that requires you to type in a **Serial ID**.
7. On your **PDA**, click on the InfoPOEMs/InfoRetriever icon, to launch the program.

- Go to **"File"** and find **"Register"** and tap on that link, as shown in the screens below.

- Locate the Serial ID number on your device. NOTE: this is NOT the manufacturer's serial number of your PDA, located on the outside of the device, but the Serial ID number assigned by InfoPOEMs/InfoRetriever. Take that number and type it into the

box for Serial ID located on the desktop computer and click the **"Get License Code"** button.

10. The license code will be **sent** to you via e-mail within ten minutes. Take that license code number and enter it into the **License** box on your **PDA**. Press the **"Set License"** button. Your registration will be good through December 2006.
