

**PROPOSAL#: P06-045
GEOGRAPHIC INFORMATION SYSTEM**

ADDENDUM NO. 1

January 19, 2006

The University of Medicine and Dentistry of New Jersey is seeking a contractor to provide a Geographic Information System, scheduled to open on February 2, 2006 at 2:00 PM.

Answers from the Non-Mandatory Prebid Conference on January 12, 2006.

1. QUESTION: Are we looking for software, hardware or total package?
ANSWER: A total package.
2. QUESTION: Is HIPAA Compliance necessary?
ANSWER: Yes.
3. QUESTION: Who will have rights to use the system?
ANSWER: The on-line display will allow only one person to change the display at a time and that right will be assigned by NJPIES. Ad hoc reporting will allow up to three (3) concurrent users, also the users who will be assigned by NJPIES.
4. QUESTION: Where will the “data be housed”?
ANSWER: The data generated through our call system will remain in NJPIES on our server. The GIS data will be imported into a GIS ‘server”. Data will be pulled by the GIS, with a system of notification should the pull fail at any time. GIS data will be stored on the GIS server until no longer needed by NJPIES.
5. QUESTION: What kind of data will be in the displayed or utilized fields?
ANSWER: All this data is text data, are in categories in the data stream and each category is then divided into parts. The data string and category contents [are as follows](#):
